

BactroBUG provides a non-toxic approach to insect control in hospitality, institutions, healthcare, property management, private homes, work environments and commercial aircraft disinfection protocol.

BactroBUG: is formulated to be hypoallergenic and safe around humans and animals. It does not harm the environment when used according to label directions. BactroBUG utilizes advanced technology based on organic ingredients. There are no harsh chemical fumes or phosphates and no sticky residues. When hand sprayed, one quart of BactroBUG can cover approximately 375 sq. ft. including furnishings or 750 sq. ft. when using advanced electrostatic spray equipment engineered by Bactronix, Corp.

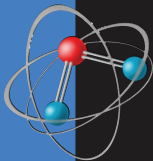

KEEP OUT OF REACH OF CHILDREN

PPE: Recommend latex or rubber gloves and protective eye wear.

First Aid Treatment: Avoid skin or eye contact. If eye contact occurs, rinse thoroughly with water for 15 minutes. If irritation persists, seek medical attention. Do not ingest. May cause gastrointestinal irritation with nausea and diarrhea.

Advanced Non-Toxic Insecticide

BactroBUG

12

as a preservative	
Total	100%

SAFE Around Children & Pets
Net Contents: ONE QUART (32 oz.)

BactroBUG is a revolutionary insecticide that delivers a physical kill by perforating the exterior membrane of the insect.

Do not use: in conjunction with products containing alcohol, bleach, ammonia, steam or heat. Avoid shampooing fabrics and carpeting after applying BactroBUG as it will remove residual insect control.

Limitation of Liability: Bactronix makes no warranties of merchantability, or of fitness for a particular purpose, nor any other express or implied warranty except as stated above. Buyer assumes all responsibility for safety and use not in accordance with label and "Bactronix User Guide" and precautionary statements.

Representation: Bactronix represents that this product qualifies for exemption from registration with the EPA under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA). These statements apply to all ingredients.
