

ORP Strip Chart Recorder

Pulse Instruments Datalogger Series

Item Number: 10RS-ORP

Enclosure

NEMA 4X wall mount enclosure design allows easy mounting and it has impact and chemically resistant construction. The front door is fastened with a latch and it provides easy access to the front panel adjustments. Bottom access to plug-in receptacles for pumps, etc. and BNC electrode connectors provide ease of operation.

System Logic

ORP is commonly monitored and recorded in liquid and water systems for effluent waste water, or other applications where ORP recording is important. The featured product listing offers a great selection of low cost and reliable ORP recording systems with no display.
